

HYMOTION™ L5 PLUG-IN CONVERSION MODULE

UPGRADE YOUR PRIUS to a plug-in hybrid now and get:

- Up to 2/3rds reduction in fuel consumption and greenhouse gas emissions
- Up to 100+ MPG for the first 30 – 40 miles of driving on a single charge*
- Automatically reverts to standard hybrid operation until next charge – driving range not limited by battery charge

SPECIFICATIONS

Energy	~ 5 kWh
Charging time	5.5 hours at 75 deg F
Charging Voltage	120V
Required electrical outlet	GFCI rated, 15A or greater
Charging temperature range	-20 deg F to 140 deg F
Operating temperature range	-20 deg F to 140 deg F
Charging Voltage	120V
Maximum charging current	10A
Weight	187 pounds
Electrically assisted range	30 to 40 miles

KEY FEATURES

- Compatible with 2004 – 2009 Toyota Prius
- Sits in spare tire compartment, cargo space preserved
- Installed in just a few hours through the Certified Hymotion Installer Partner (Green CHIP) near you
- 5.5 hour charge time
- Charges from standard household outlet
- Certified to federal new vehicle safety standards
- Meets strictest emissions standards in U.S.
- Prius monitor displays L5 state of charge
- 3 year standard warranty
